Clark Forklift

Clark Forklift Forklift Training - Presently, there are over 350,000 Clark lift trucks performing worldwide, and more than 250,000 operating in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, duel fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive makes of forklifts, with parts covering more than 120,000 specialized parts for all of its automated equipment. Your regional Clark Supplier is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Globally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a customary feature on every lift truck.

Clark's relentless mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental restrictions, thus placing them in a prevailing industry position.

Lean Manufacturing

Clark has chosen the structure of "Lean Manufacturing" at all of its assembly plants because this method is extremely economical and permits minimal use of resources. Developed to ensure maximum proficiency, this system is intended to find and acknowledge the most effective methods for manufacturing facility stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Engineering

By working in concert, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The new value engineering agenda combines progressive product growth and offers superior client support and service within the industry.
